Summary

Motivated entry-level Full-Stack Web Developer and team player. Constantly challenging myself to research new languages and technologies while refining my current skill set. Exceptional time management and ability to quickly prioritize. Excited to join a team to apply my skills and grow alongside industry professionals.

Technical Skills

Languages: HTML5, CSS3, MySQL, JavaScript/ES6
Technologies: Node.js, Express.js, jQuery, Git, Bootstrap, Firebase, API integration
Future: MongoDB, Java, Python

Featured Project - Scout

Description: *Ride-share comparison app - Scout utilizes a clear and simple user interface to show real-time prices and ETAs of the leading ride-share services allowing the user to find the cheapest or fastest service.*
My Role: Project Leader and Github Source Control Manager. Integrated the Google Maps API and led overall UI/UX site design. Led presentation for the final grade of the project.
Languages/Tech Used: HTML, CSS, Bootstrap, JavaScript, jQuery, APIs (Google Maps, Uber, Lyft), Express.js
